

Monthly Report for January 2009

Hello everyone, firstly let me apologise for the lack of monthly reports just recently, with Christmas running after me I unfortunately didn't get chance to write a report. But I'm definitely back now and as Take That say I'm 'Back For Good.' This is unfortunately going to be a short report but things will be back to normal next month.

In the recent months we have had good progress with our isolation area of which we are building next to Hogsville, we now have all sides up for the shed and have also got the main door on as well. Well done guys your doing a great job!!

Another 'little' job that we are looking at getting done just before the summer starts is 'Mumsy' (our resident fox) pen, to be able to revamp it to make it more natural for 'Mumsy' and the cubs that she rears in the pen. If any body can help us with materials for this job then please ring, we will probably be looking at building sand, ballast, sharp sand, cement, concrete blocks 100mm, reinforcing mesh, plywood etc.

So if there are any Building Merchants out there who doesn't want some of its 'broken' stock or would like to donate some stock to us then please give us a call!! Tel: 01522 530428

So that's it from me look out for next months report where there will be plenty to read!
