

Monthly Report For May 2009

Hello everyone firstly let me apologise once again for not doing the monthly report on time i am having trouble with some software on my computer but nevertheless hopefully we can get this one on to the website just before the end of May.

Update

The last time I spoke to you all we were still looking at doing the isolation area and also the education shed, well i am very proud to say that the two guys that we have got on the case at the moment, Mick and Mark, are doing very well. The isolation area will be up and running hopefully very soon, as they have got the walls isolated and they have painted it ready for use, the only thing left to do now is to paint the floor. Then in the education shed they have now separated the shed up so we have proper rooms now and you can actually picture what it is going to be like. Once again like I said in the last monthly report in January we still need materials to help us carry on building the projects that we have lined up, so things such as bricks, blocks, plasterboard, insulation, wood etc. we definitely need these materials so if you do have these materials that you are trying to get rid of please think of us before you skip them.

Animals

As summer is creeping upon us we are getting a lot of baby animals coming into us, please do check our website on the section that says 'found an animal?' before you look at even touching or bringing the animal into us please check this section first. At the moment we are hand feeding animals left right and centre, of which one is a baby tawny which is the first tawny that we have had in this year. We have also been inundated with ducklings this spring as well of which they are all doing very, very well.

Events

As you all know the Lincolnshire Show is coming up and we will be having our own gazebo at the show please do come along and give us your support, buy something off our merchandise, take some of our leaflets, or simply just see what we have found in our travels and what casualties we have had in the past, trust me you will be surprised. Also just after the show we have the Boultham Park Fair where we sell bric a bric so all you locals can come down and see us!!!

Rehoming!!!

At this moment in time we have many animals that need rehoming of which is the following, cockatiels, lovebirds, Rosellas, guinea pigs and a chinchilla. Obviously with all these animals we know how much they are worth, and what we do ask for is a sensible donation for the animals, especially on the birds of which we have had experts coming into the hospital to tell us how much they cost, so please be generous on the donations. Also with all the animals that we rehome we do, do a prehome and a post home animal check.

Fundraising

At this moment time we are struggling with the larger ink cartridges, due to the credit crunch the company who usually took these cartridges for us can no longer take them therefore we are unable to accept them from you, therefore please do not bring them into us. On the upside of things, we can still take mobile phones, small ink cartridges, and aluminium cans. So please bring them into us as we do make a lot of money out of these. Thank you!!

Volunteers

As most of you have put volunteer forms in you may noticed that we have not called you, this is simply because we do have a waiting list of 2months, but as summer is coming upon us we may be needing more help, so please be prepared for that phone call :D

Hopefully next month i will be able to continue with the monthly report if i manage to sort my software!! Nice writing to you all again and see you all next month

cheers

Sarz
